

Utterance through Bro Greg Bitely

Sunday January 24 AM Service

'My angels have a great roll in this ministry. For this ministry is not just a church. This ministry is a lighthouse. It will provide light, it will provide safety and it will provide direction to those that I bring through. But My ministering Spirits, the angels, they have a work to play here as well. So don't be surprised and don't be dismayed if you see a glimpse, if you hear tell of these my angels. Just know that they are working to bring about the plan and the purpose that I have for this place', saith the Lord.
